

```
public class FizzBuzz {  
    public static void main(String[] args) {  
        for (int i = 1; i <= 100; i++) {  
            if (i % 3 == 0 && i % 5 == 0) {  
                System.out.println("FizzBuzz");  
            } else if (i % 3 == 0) {  
                System.out.println("Fizz");  
            } else if (i % 5 == 0) {  
                System.out.println("Buzz");  
            } else {  
                System.out.println(i);  
            }  
        }  
    }  
}
```
